

BUSINESS SUCCESS HUB

Lancaster Chamber
People | **Business** | Community

Make resources more available to all to have a greater impact on our businesses community.

This goal is the cornerstone of the Lancaster Chamber's Business Success Hub, a new model we embraced for 2017 and beyond. And one of the most vital ways to facilitate this goal is to provide a place that helps people thrive and businesses excel. The Lancaster Chamber's new BB&T Business Center is that place.

In today's environment, the Chamber firmly believes that person-to-person interaction is still imperative – perhaps more so than ever. The Business Success Hub provides even more opportunities for peers in the business community to gather and engage around common interests; and to accelerate ideas, opportunities and solutions. Likewise, individuals will find a welcoming place at our BB&T Business Center to conduct research or to use for thinking space. Companies may use it for meetings and training.

A More Open and Welcoming Place

The Lancaster Chamber's BB&T Business Center is the new "front door" for County business. It is more accessible than what we've known because membership is not required. It is open to anyone to meet a variety of needs.

Lancaster Chamber's BB&T Business Center offers:

Professional Development & Training

- Venue for continuing education classes
- Offerings to invest in employee growth, skills and development
- Partnering with local colleges and universities for unique education opportunities (credit and non-credit)
- Access to space for your own training

Business Resources

- Customized business & industry research and trends

Gathering & Networking Events

- Networking opportunities
- Timely, topical program offerings
- Access to space for meetings of various sizes and purposes
- Catering and high-tech equipment and services

Innovation & Collaboration Opportunities

- Facilitated innovation think tanks
- Collaboration incubators
- Targeted programs for professionals to come together from like industries

Touchdown Space

- Resources & technologies for home workers & out-of-towners

This exciting and easily-accessible place is a hub of connectivity, programming and resources for people and organizations. It provides an environment for learning, connecting, and collaborating – on your own, or through the Lancaster Chamber offerings hosted there. With your participation, the Business Success Hub and BB&T Business Center will be catalysts for having a greater impact individually and collectively.

More Impact Outside Our Walls

Lancaster Chamber's BB&T Business Center is a great gathering place and center of information. But much of our work facilitating and partnering to accelerate ideas, opportunities and solutions happens outside our office's walls. From supporting very public initiatives to quietly guiding early conversations, the Lancaster Chamber is hard at work – throughout Lancaster County – as a catalyst for greater impact – on people thriving, businesses excelling and communities prospering.

"The Chamber offers ways for people to quickly and efficiently learn new ideas, improve skills and grow to better impact

their businesses. The Chamber is a world-class organization and vital resource for our business community."

John McGrann

President, Penn Stone
